

ACTON®

FINISHING

TVB SERIES

Fast. Efficient. Affordable.

ActOn's machines are renowned to be of high quality and high reliability. The aim of the TVB series was to design a compact, modern and versatile finishing machine to allow OEMs and subcontractors to minimise their investment whilst enjoying the extra benefits and features of a vibratory machine.

It is important to offer companies a locally manufactured and affordable alternative for light to medium duty deburring, polishing, descaling, radiusing and burnishing applications.

Model	Capacity Litres		Overall dimensions in mm/ inch			Chamber dimension in mm/ inch		Max Motor Rating (kW)
	Gross Volume	Usable Volume	Length	Width	Height	Width	Height	
TVB5	235	150	1200 / 47	1080 / 42.5 (without lid)	1100 / 43.3 (without lid)	235 / 9.25	360 / 14.2	1.2
				1400 / 55.2 (with lid)	1200 / 47.2 (with lid)			
TVB10	420	283.5	1690 / 66.5	1475 / 58.1	1235 / 48.6	330 / 12.9	515 / 20.3	2.2

Key Benefits

- ✓ 40% faster processing times than current models in the market
- ✓ Designed and manufactured as a modular arrangement
- ✓ Optimised design to reduce material wastage and manufacturing time whilst maintaining our high quality
- ✓ 45% reduction in power consumption
- ✓ Designed and Manufactured in the UK

Key Features

- ✓ Integrated dosing
- ✓ Customisable chute
- ✓ Undersize media separation (standard feature)
- ✓ Extended grid for efficient separation
- ✓ Start/Stop DOL
- ✓ Available in 3 phase or 1 Phase
- ✓ Easy access for flyweight adjustment and maintenance
- ✓ Modular arrangement, separation system can be added at any time to suit the requirements of the customer.
